

Fernhill Farm Food

Real food

Fernhill Farm Food have a wide range of menus available and are happy to tailor them to suit people's tastes, budget and specific dietary requirements. Join us on the hill to discuss your requirements.

We breed our own pedigree Saddleback Pigs, Aberdeen Angus Beef Cattle, Shetland Sheep, and Indian Game Chickens - producing meat for farm shops, local customers for home consumption and creating meals served on the farm with zero food miles.

Seasonal vegetables grown in our garden accompany our meals when available and we use local suppliers to provide a true taste of Mendip.
